Xmas Day	11am till 2pm
Boxing Day	11am till 11pm
Thurs 27th	11am till 11pm
Fri 28th	11m till 11pm

INNSTAY CUSTOMERS PREPARING FOR CHRISTMAS

The festive season is rapidly approaching and our BeeBox users are finding it easy to keep on top of their Christmas offers and events.

As the BeeBox System comes with pre-loaded advert templates that follow a Christmas theme all you have to do is enter your information and add to playlist, this will then begin to play on the TV screens in your venue.

Get those bookings in early with great features such as a Christmas countdown and cracker jokes!

GETTING THE MOST OUT OF YOUR WAREWASHING EQUIPMENT

When we launched our Clear Cool division we always knew we wanted to offer premium warewashing equipment on affordable weekly rentals. Our move to supplying Classeq products which are manufactured to a high quality in the UK has allowed us to maintain excellent uptime records with all of our machines.

Our main aim is to ensure our machines don't malfunction when you need them most, and if for some reason they do, don't worry because you'll be fully covered on service and parts, for the lifetime of your contract.

We also want them to work well on each and every wash, that's why we developed the Clear Cool detergent range which gives a first class clean every time whilst not degrading glassware.

RULERS OF EGYPT BRINGING PLAYERS TOGETHER

Reflex's community Cat C game Rulers of Egypt was successfully launched on to our GamePro machines last week.

In a number of sites we have managed to install two of the machines so that the community feature can be used to its full potential. If two people play the game at once and one of them gets the bonus the other player automatically gets entered in to a bonus too. This is a great way of creating a buzz in venue.

These pictures show the two machines at one of our sites in Newcastle - they certainly make an impact!
